Vision Statement

Let inner strength build evolving business enterprise built on quality, creativity, moral values, compassion & trust.

Mission Statement

“We Deliver the Promise towards our Quality, Service, Customer satisfaction & Environment”

Technology

ZINZER Quartz & Granite sinks are made with unique polymerization casting technology. A highly equipped laboratory monitors & controls primary preparation of various base materials.

A blend of Acrylics, Quartz, Granite, Cross-linking agents & initiators are homogeneously mixed in Temperature controlled Pressure vessels.

The unique matrix of sink material is polymerized inside highly polished mold under very stringent Time-Temperature-Pressure condition controlled by a automated computerized panel. The complex molding technology & automated control system for monitoring process parameters ensures extremely strong and unique material properties for ZINZER Quartz & Granite sinks.

Quality

ZINZER Kitchen Sinks are a premium range of Granite Sinks, Quartz Sinks & Composite Sinks that are manufactured as per International Quality Standards to stand out in the best kitchens of the world.

Kruti insists on Quality in whatever they do, be it Products, Working Methods or Personnel Development. Kruti conducts continuous R & D to upgrade & to develop newer material structures for ZINZER kitchen sinks.

Kruti aims at achievement of customer satisfaction by improving the high standards of its products & services.

Material Structure

ZINZER Quartz & Granite Sinks are manufactured in various models, colours & material structures. These sinks are made from natural Quartz / Pigmented Quartz & Acrylic which results in Strong & Beautiful material structures namely Popular, Prime, Premium.
